1. Claims 1-28 are allowed. Claims 27 and 28 are newly added. Claims 1, 10 and 19 are independent.

2. The following is an examiner's statement of reasons for allowance:

Independent claim 10 as amended recites "a carrier chassis pivotably coupled to the outer casing". This feature in combination with other limitations of claim 10 is not taught by the closest prior art of record Katogi (Japanese Publication No. 10-285336).

Claims 11-18, 27 and 28 depend on claim 10.

Independent claim 1 is allowable over the prior art of record because the closest prior art Katogi (JP Publication No. 10-285336) does not disclose that an engagement component, with which the adjusting component (screw) engages, is formed at the outer casing (1), the adjusting component disposed through the through-hole (30a) of the carrier chassis (30 in Fig. 5).

Claims 2-9 depend on claim 1.

Claim 19 is allowable over the prior art of record because the closest prior art Katogi (JP Publication No. 10-285336) does not disclose that the optical device casing has a latching structure engaging with the adjusting component (32), the adjusting component positioned at least partially in the through-hole (30a) of the document platform (30b) (Figs. 3 and 5-7).

Claims 20-26 depend on claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
